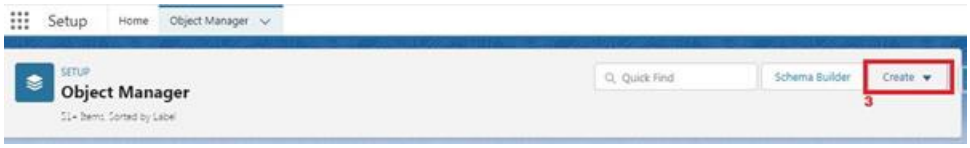
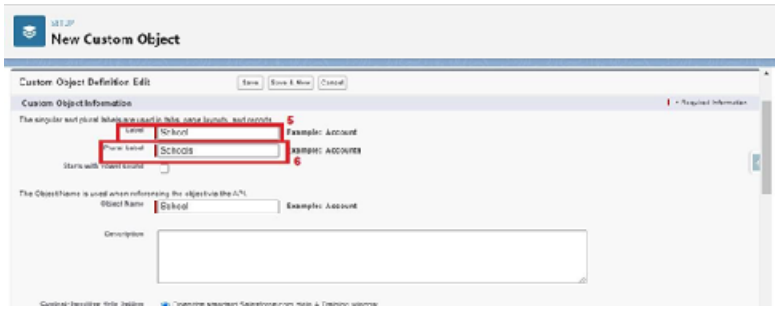
Creation Of School Object Creation Of Objects For School Management

For this school management we need to create 3 objects School, Parents and Student. The below steps will assist you in creating those objects.

1. Click on the gear icon and then select Setup.
2. Click on the object manager tab just beside the home tab.
3. After the above steps, have a look on the extreme right you will find a Create Dropdown click on that and select Custom Object.
4. On the Custom Object Definition page, create the object as follows:
5. Label: School
6. Plural Label: Schools
7. Record Name: School Name
8. Check the Allow Reports checkbox
9. Check the Allow Search checkbox
10. Click Save.





Now create a custom tab. Click the Home tab.

Lightning App

Apps in Salesforce are a group of tabs that help the application function by working together as a unit. It has a name, a logo, and a particular set of tabs. The simplest app usually has just two tabs.

There are two types of app -

1. Standard App: Standard apps come with every occurrence of Salesforce as default. Many features like Sales, Marketing, Community, call center, content, Salesforce Chatter, App Launcher, etc are present in it.
2. Note: The description, Logo, and Label of standard app cannot be altered.
3. Custom Apps: Custom apps are created according to need of user. Custom Apps are made by using standard and custom tabs
together.

4. Note: Logos for Custom Apps can be changed.
